

INDICATION DIN LEFT/ RIGHT

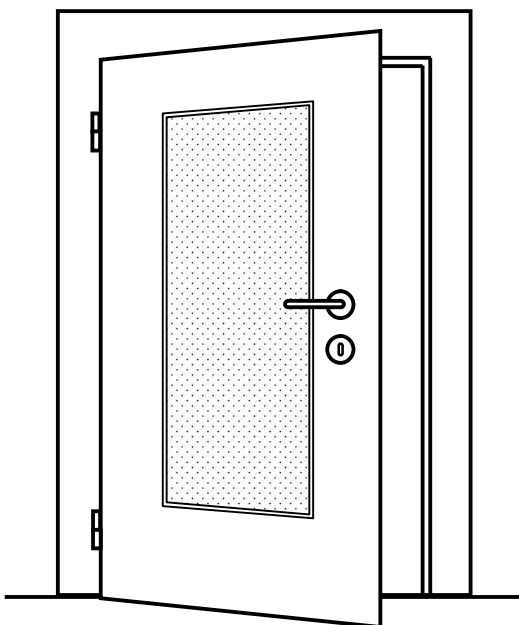

DIN = German Industrial Standard

Rule-of-thumb: The door has to be looked at from the side where the door hinges can be seen. (Direction left/right is required for door fittings of KARCHER, for lever sets with handle/knob.)

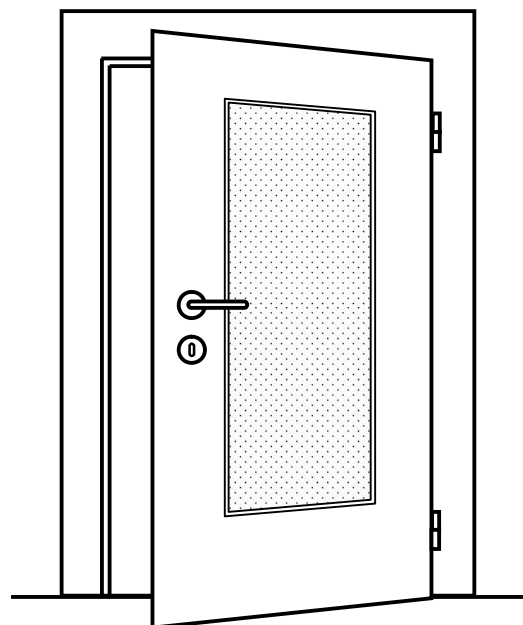

1. left inwards = door DIN direction right / lever handle DIN right (handle points right)
2. right inwards = door DIN direction left / lever handle DIN left (handle points left)
3. left outwards = door DIN direction left / lever handle DIN right (handle points right)
4. right outwards = door DIN direction right / lever handle DIN left (handle points left)

DIN left

lever handle points left

DIN right

lever handle points right
