AWARD-WINNING FINISH

COSMOS BLACK

In 2017, KARCHER DESIGN was one of the first suppliers to launch modern and minimalist door handles in its finish cosmos black to the German market. The concentrated matt and deep black surface is reminiscent of the depths of the cosmos.

The surface is complimented by its very pleasant and soft-touch feel of quality and outstanding design. The finish cosmos black completes modern interior design concepts and is eye-catching on every door.

MISSION INVISIBLE

DESIGNS OF STAINLESS STEEL

NEW

The KARCHER DESIGN range "Mission Invisible" is dedicated to a modern and pure interior design, placing focus on minimalist design. A $1 \frac{3}{16}$ " small mini rose was developed, which almost completely disappears behind the door handle. Combined with the three new design models Soho, Boston and Brooklyn, the door fitting is reduced to its bare minimum.
